Newsletter of the
Western Reserve Chapter of the
International Plastic Modelers' Society

July 2013

The President's Corner

Hello fellows!

Here it is July and things are going by fast. Two big items up front: first the air show going down on Sat July 13 and Sun 14 at the Lost Nation Airport. Set up starts at 1.00 sharp at my home at 709 BAYRIDGE BLVD Willowick. The more bodies we have the faster it will go. Come on down on Sat or Sun and have some good times. You can sit and keep the hands off the display models or work on the Make and Take. We will have some pop and water to keep you

cool. Next, the Library. Last month we were told no room was available because of construction going on and also the next month. So instead of trying to meet at the Library *we will meet at my home on the 20 of this month.*

I have not seen the paper work for the Library. I do not know if it is signed or what is going on. I hope to have this straightened out by this weekend. So I hope to see you at the Air Show this weekend.

Tim Glowacki

The Secretary's Desk

OK. The Gathering of Eagles is coming up! The weather this summer has been very freaky, so hopefully, it will be a bright sunny day and lots of fun will be had. I have to work so I will be there in spirit.

I have been in contact with Rebecca McFarland of the Euclid Public Library and she assures me that the renewal letter has all ready been sent out. The paperwork is mailed out to the person who last signed for the room. It does not go to the club or any of the officers directly. The room must be signed for by a Euclid resident.

Hopefully we can get this matter resolved. I have mapped out the dates for next years' meetings. I've attached it to this newsletter, so we all have a copy and we can use it to fill out the paperwork for the Library.

John Camper

Spotlight

Send in your ideas about things you want to see in the Newsletter. I've gotten some submissions in the past that were really interesting, helpful and exciting.

There are some websites that I visit frequently for information and inspiration such as FineScale Modeler, Scale Modelling Now, Starship Modeler, Aircraft Resource Center and ModelWarship.com, just to name a few. And don't forget about IPMSUSA.org!

There is so much information out there and plenty of people to answer questions. Just do a Google search and see what pops up!

Upcoming IPMS Events

Most of these events have websites set up that supply maps and other info related to the specific event. If you are looking for additional info, visit www.ipmsusa.org
